

K-12 Product Guide

OPEN UP GOODNESS!

Like you, we're growers of good.

There's great joy and responsibility in taking care of students. But providing goodness isn't always easy — you're faced with labor issues, nutrition guidelines and rising costs. We take on those challenges for you, so you can do what you do best. And we nurture goodness in other ways, with partnerships and initiatives that support people and the planet.

It all starts on a farm.

We care about supporting our land and our people. About 90% of the food we produce is grown on American farms. Many of those are 3rd-, 4th-, and 5th-generation farms — some of which we've been working with for more than 100 years. So you can rest assured you're getting premium Buy American-compliant options.

All that goodness is handled and packaged responsibly.

As the original plant-based food companySM, sustainability is at the heart of everything we do. Here are just a few of the steps we are taking to reach our net-zero-emissions goal by 2050, and help keep the planet thriving.

We breed our vegetable seeds the traditional way, to naturally increase pest and disease resistance and quality, **without the use of GMOs.**

In FY23, we **reduced energy use by 17%** per kg of product produced.

We donate an average of **5 million pounds** of food per year to support Feeding America, food banks and various nonprofit organizations.

Most of our crops travel **less than 100 miles** from the field to where they're packaged.

92% of our packaging is non-plastic and recycle-ready, and any plastic packaging will be **100% recyclable, reusable or compostable** by 2030.

Our partnerships reflect our strong values.

We strive to cultivate goodness, both on and off the farm. We partner with organizations that do the same, working to feed children, promote better health, reduce food insecurity, and cultivate a cleaner environment. For example:

- In 2022, we committed to investing **\$5 million** over the next 10 years to support the physical, mental and social-emotional health of youth across the U.S. with the nonprofit Alliance for a Healthier Generation.
- We've diverted **10 million pounds** of peach pieces from landfills through a Feeding America partnership over the past 24 months.

The brand you trust that makes kids smile.

There's nothing worse than food left on the tray. With Del Monte® products, you don't need to worry about that. Our nutritious and delicious products keep schools and kids happy.

4oz Fruit Cup® Snacks
